Summary

Computer Engineering undergraduate with hands-on experience in building AI-powered applications using FastAPI, React, and Transformer models. Skilled in developing REST APIs, implementing Retrieval-Augmented Generation (RAG), and designing end-to-end AI workflows. Seeking an entry-level Full Stack / AI Engineer role.

Skills and Interests

Programming Languages:	Java, Python, SQL
Frameworks:	FastAPI, React.js
Web:	HTML, CSS, JavaScript
Database:	MySQL (CRUD, Joins)
Concepts:	REST APIs, OOP, Data Structures, Backend Development
AI and ML:	Machine Learning, NLP, Prompt Engineering, RAG (Basic)
Tools:	Git, GitHub, Postman

Education

Kalasalingam Academy Of Research And Education	2022–2026
Bachelors of Engineering in Computer Engineering, CGPA: 8.49	
Sree Vidyanikethan International School	2020–2022
Senior Secondary (Class XII), Percentage: 75.8	
Sree Vidyanikethan International School	2019–2020
Senior Secondary (Class X), Percentage: 77.8	

Projects

AI-Powered Document Intelligence Assistant (RAG-Based)

- Built an AI application to summarize and answer queries from PDF/text documents using Transformer models
 - Implemented Retrieval-Augmented Generation (RAG) using document chunking, embeddings, and FAISS for context-aware retrieval
 - Developed a chatbot interface supporting multi-turn conversations based on document content
 - Designed REST APIs using FastAPI for document upload and real-time query processing
- Tech Stack: Python, FastAPI, Streamlit, Transformers, FAISS*

AI-Powered Multi-Disease Risk Prediction And Recommendation Platform

- Integrated AI-based recommendation logic to generate personalized lifestyle suggestions
 - Designed scalable REST APIs using FastAPI for real-time prediction
 - Structured data pipelines and model inference workflows
 - Explored LLM-based extensions for generating health insights using prompt-based techniques
- Tech Stack: Python, JavaScript, FastAPI, React.js*

Positions of Responsibility

- Team Leader: IBM Hackathon, Community Service Project—Led a 4-member team managing task allocation, development, and presentation of an innovative solution under strict deadlines.
- Team Captain: Intra-group Volleyball Competition, Sree Vidyanikethan International School—Led and motivated team members, planned practice schedules, and strategized gameplay to maximize performance.

Achievements and Certifications

- 2nd place in 'Code Test' programming event, Kalasalingam University
- 3rd place in IBM Poster Presentation Competition
- CodeChef Certified (Database and Management Systems, Design and Analysis of Algorithms)
